THE LATE FIRE-INCIDENTS-A CHEESE Story.—The fire was still smouldering last night, and the Æina Steam Pire Company were on duty in the vicinity. A small portion of Mr. Wohlt mann's stock was saved, but in a damaged condi tion, as the roof and both floors had fallen in. The roof of Mr. O'Neill's store caught fire, and the stock in the front of the building was considerably injured by water and smoke. There was a frightful loss of whiskey; very little of it was saved in the shape of drinks. At one time, when the fire had reached that part of Messrs. Klatte & Co.'s store where the whiskey was kept, the flames assumed the most brilliant huce and shot up far above the roof of the building. While mov-ing the furniture of Mr. Metz, a feather bed oaught on a broken shutter, a jerk tore it open, in a minute feathers were flying through East Bay like snowfakes. During the progress of the fire some of the watchful fremen secured a mammoth cheese, and, attacking it with their axes, were preparing to serve out rations, when interrupted by the Chief of Police, who demanded the cheese as private property. It was delivered anm irm ir ngly and given in charge of some po nen to guard. It is noted as a singular fact that later in . h : evening cheere was abundant, and every policeman was working his motors

into a huge hunk.

THE ACADEMY OF MUSIC.-The work on this building proceeds as if by magic. The scaffolding has been removed from the interior, and the dome and frescoed ceiling are now exposed to view. The parquette is being furnished with the modern opera chair, the seat of which works on a pivot, and can be thrown against the back in an instant, thus allowing free ingress or egress from the line of chairs. The workmen in every department are using the greatest dispatch, yet nothing is hurried over or imperfectly done. One of the best features is the attention that has been paid to the means of communicating with the different parts of the house. In New York it takes from eight to ten minutes before the best theatres stimates that in five minutes every one can leave the Opera-House without unnecessary jostling or crowding. Iron gates have been placed at the main entrance, and no one is admitted except or an order from Mr. Chadwick. This is a wise pre caution, as a crowd of visitors would only impede the workmen, and it is far better for the public to inspect the building when it is opened next month for the first performance.

COURT OF GENERAL SESSIONS-HON. R. B. CARPENTER, PRESIDING .- The following cases were

The State vs. Fred. Johnson-assault and bat. tery. Verdict, guilty.
The State vs. Moses Smalls-larceny. Verdict,

guilty. The State vs. Charles Harrison, alias Charles Jacobs--murder, Messrs, W. St. Julien Jervey and George R. Walker for the defence. The soner plead not guilty, and after ten challenges by the prisoner and three by the State, a jury was formed. The murder was committed on the 15th of last August, near the Four-mile House, by the deponent on Jim Seabrook, both colored. Harrison strongly suspected the deceased of having adulter strongly suspected the deceased of having additer-ous intercourse with his wife on Friday, and, having watched the parties for two days, he met Scabrook on Sunday morning near his house, and think-ing this a confirmation of his jealous doubts, he shot him with a small pocket pistol, Seabrook being killed instantly. Harrison was defended by counsel, who spared no pains to prove the innocence of their client. The Judge refused to allow any dence on the part of the defence, to prove idultery, on the ground that it had occurred too long before the killing, and the flush of pass by the counsel. The trial of this case consumer the major portion of the morning. A number of witnesses were examined and able arguments made by Messrs. Jervey and Walker. The Judge

summed up the evidence and charged the jury, who had not returned at a late hour. The Grand Jury returned the following tru

were adopted:

Whereas, It has been the will of the Supreme Architect of the universe to remove from our mildst our much respected friends and brothers, R. MERIETENS, JOHN MERIETENS, THOMAS PANNE and A. H. DRYER, members of this Lodge. They have been cut down in the prime of their life and in the mildst of their usefulness. They are gone like the autumn's leaf, to enrich our mother earth. In this we can see that death has entered our ranks, thereby weakening the chain by which we are united, man to man. As friends and brothers they were never wanting in readiness, fidelity and zeal; as kind and affectionate hurbands and fathers, good elitzens, and as Massons, good and fathers, good citizens, and as Masons, good and true; and always practiced the principles of our beloved order—friendship, morality and brotherly

Cotion Beed. TO SEA ISLAND COTTON PLANTERS.

The small yield of Sea Island Cotton (peculiar to that variety, and yearly lessened by increased ravages of worms,) is not nearly compensated by the greater value of its long staple, and a change of Seed is imperatively demanded-experience having fully proven that the earlier maturity of other kinds greatly lossens the danger from worms. The question, then, is: The proper varieties to adopt; and this is a problem easier solved than formerly, when little attention was paid to this subject in the cultivation of Cotton by the great majority of Southern Planters. The subcribers have recently witnessed with pleasure the increased interest in improved varieties ex-hibited by the numerous responses (nearly 100 in number) to their letters inquiring of Planters about the characteristics of all the known varie-ties of Cotton, and the effects of change of climate and soil on different kinds. The established facts we have thus collected we are prepared to apply to different soils and climates; and to any Planter (or association of Planters) who will ad-dress us, describing the characteristics of their localities, we will freely give the fruits of our knowledge. Our different correspondents have given us the control of every variety of Seeds we have heard of. Our list comprises as many as twenty distinct varieties, and our specimen room of stalks, limbs, bolls and lint, that have been sent to us, is a marvel of its kind. We are now prepared to fill orders (after a few day's notice) for "PETIT GULF," "DICKSON'S," "Monterey," "Peeler's," "Boyd's Prolific," "Vick's 100," "Goo sey's," and "4 Bale;" and, with a few day's additional notice, we can promise to procure almost any other denomination that may be ordered. The facility with which bogus varieties may be palmed off on purchasers, induces us to say that we are old merchants of New Orleans, and refer confidently to all the old merchants of this city. Liberal discounts will be made on large purchases. STEELE, PINCKARD & CO.,

BECAREFUL WHAT MEDICINES YOU TAKE.

When you are exhausted by overwork of head or hand, and feel the need of something invigorating, don't drink whiskey or any intoxicating hing, whether under the name of litters or otherwise. Such articles give just as much atrength o your weary body and mind as the whip gives o the jaded horse, and no more. Alcoholic stimulate are injurious to nerve health, and are always followed by depressing reaction.

DODD'S NERVINE AND INVIGORATOR

Is a Tonic and gentle stimulant, which is not attended by reaction. What it gains for you it maintains. When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending tectotalism in the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or recuperation, will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition. Turn from it. Take a tonic that will refresh and not destroy. DODD'S NERVINE is for sale by all bruggists. Price One dollar. See book of serificates that accompanies each bottle.
